Scheduler Analytics

Helping you streamline your security guard scheduling and mitigate errors.

Schedule Overview In Numbers

Get an overview of all schedules of the last 7 days to 2 months.

✅ Late Show

✅ Unconfirmed Shifts

✅ Open Shifts

✅ Time Off

✅ Shift Exchange

✅ Schedule Request

Schedule Overview

GuardsPro schedule analytics is primarily designed to offer a brief overview of the scheduling stats varying from total schedule hours to late show and so much more.

Scheduled Vs Worked Hours

Having lesser worked hours than what was scheduled could negatively impact the security service you are providing. View everyday scheduled and worked hours numbers in a bar graph to easily figure out the missedhours. You can also view the data for the current week to the previous four weeks.
