

GUARDSPRO

GUARDSPRO CLIENT MOBILE APP

Clients can stay connected and gain insightful details of the patrols conducted on their post-site by security guards using the innovative GuardsPro client mobile app.

A TOOL TO FOR BETTER CLIENT ENGAGEMENT

Fully engaged clients bring in a lot more revenue than their less-involved counterparts. GuardsPro client mobile app is a straightforward and cost-effective way to provide it.

CENTRALIZING SECURITY GUARD OPERATIONS

- Smarter Decisions Come Naturally When Client Data Is Made Available On A Single-point Solution.
- The app gives your clients secure access to information right at their fingertips when needed.
- Instead of waiting for you to get back to your clients, they can utilize the app to get their answers.

RUN A MODERN SERVICES BUSINESS

AUTOMATE PROGRESS TRACKING

Track guard history and view post orders to ensure everything goes as planned for complete site security.

STREAMLINE COMMUNICATION

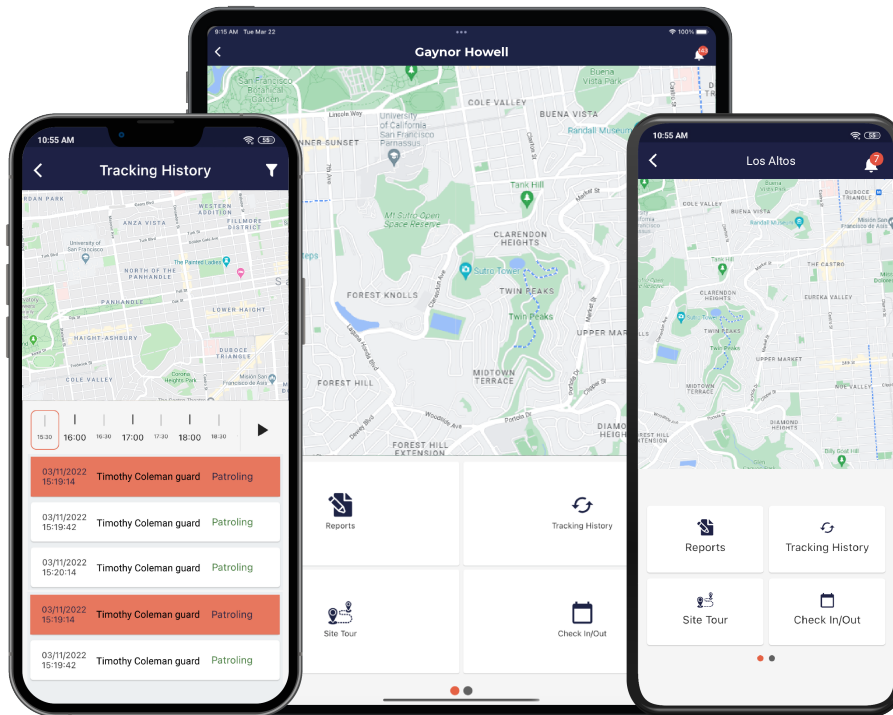

The app offers an extra channel of communication to both build loyalty and enhances client user experience.

AUTOMATE REPORTING SHARING

Let your clients know what's happening on their site by automatically sharing all security guard reports.

ENHANCE YOUR PROJECT MANAGEMENT PROCESS AND BUILD STRONGER CLIENT RELATIONSHIPS

WHY YOU NEED A CLIENT MOBILE APP?

Implementing a client portal presents benefits for you and your users. Let's review some of the key advantages.

HIGH ACCESSIBILITY

Get access to all the data whenever and wherever you need it.

COMMUNICATE SECURELY

Break communication barriers that can sour your relationship.

PERSONALIZED EXPERIENCE

Give custom access to your teams by creating custom roles.

SCALE OPERATIONS

Track guard activity and performance with detailed reports.

SAVE TIME & MONEY

Implement the innovative client mobile app at a lower cost.

GET STARTED WITH THE CLIENT MOBILE APP NOW

- Download the app on your iOS or Android device.
- Login into the client web portal and stay logged in.
- Login into the app using the portal's credentials.
- Start tracking guard performance on the post sites.
