# GUARDSPRO

## Integrated Guard Tour Dispatcher

GuardsPro's real-time guard tour dispatcher helps you register dispatch calls coming in from multiple sources, collect real-time updates from assigned security guards on the ground, and manage important information within the system.

## Centralized Real-Time Dispatch Software

GuardsPro's centralized real-time dispatch software helps you to access data effortlessly to remove communication lags so that priority calls are never missed in urgent situations.

### Manage Dispatch Calls From A Single Platform

Register new dispatch calls and assign them to multiple security guards using a single platform.

### Get Live Updates On Dispatch Call Status

Get real-time updates to keep track of the dispatch calls assigned to the security guards by viewing live notes, audio, video, and images.
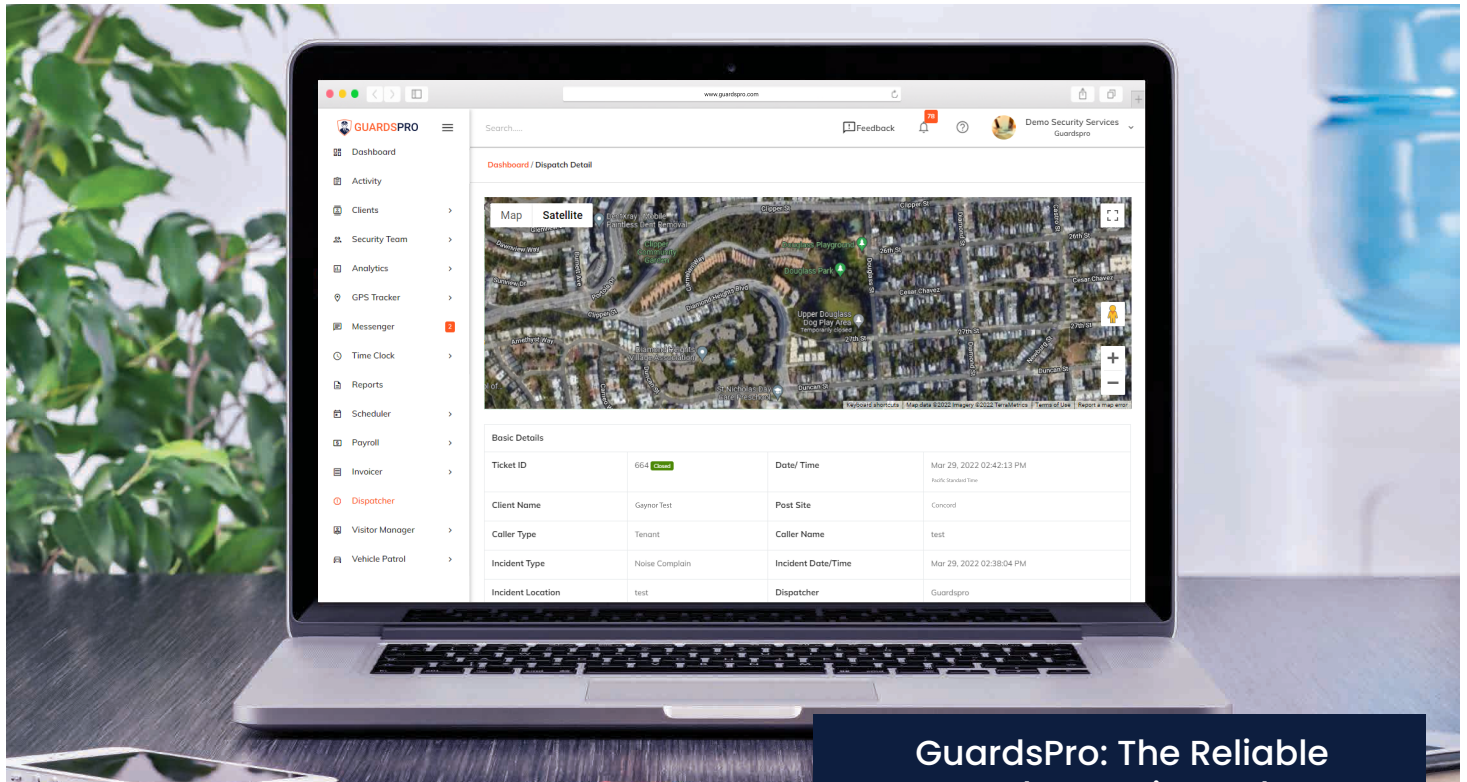

### Keep Dispatch Call Data Organized

GuardsPro dispatcher helps dispatchers register important call information and stores it in an organized manner to minimize response time.

## GuardsPro: The Reliable Guard Tour Dispatcher

### Get Live Activity Status

Get live activity status of the guards on the ground by quickly finding out which guard has copied the dispatch ticket, is on the way or has arrived on the site.

### Reduce Response Time

Organized dispatch data allows the efficient management of calls coming in from multiple sources to ensure emergencies are responded to in the least possible time.

### Dispatch Live Notes

GuardsPro makes it easier for the dispatcher to add and view the live notes sent by the guard without refreshing the page so that he stays updated on the status of emergency calls.

### Site-Specific Updates

Enable site-specific updates to focus on more violence-prone sites. Since, each one of them is unique in terms of the number of site patrols, incident history, or the security officer deployed.

### Eliminate Human Error

Automate the way you manage dispatch calls to make sure no important call is ever missed, and every security guard gets the aid whenever required.

## Why Choose GuardsPro's Web-Based Security Guard Dispatcher?

GuardsPro Guard Tour Dispatcher centralizes and connects all your staff using a single platform to ensure on-time action, cutting down response time with properly organized data.

## How GuardsPro Streamlines Communication Flow?

GuardsPro Guard Tour Dispatcher cuts down the chances of chaos and confusion with real-time data when an urgent situation demands your complete attention.
