

GUARDSPRO

GuardsPro Messenger Feature

A secure messenger that allows guards and admins to connect and collaborate.

Instant And Effective Messenger

The instant messaging feature that lets you share information in real-time to keep the team informed and updated.

Stay Focussed

Allows guards to chat only when checked in on the post site so that chats remain focused and professional.

Seamlessly Integrated

Works with the mobile app and back-office dashboard, cutting down the need for a separate messenger app.

Secure Access

GuardsPro messenger allows the admins to manage user access so that the shared information stays safe.

Add Multimedia

Make communication clearer with multimedia attachments- add voice messages, videos, and pictures to chats.

Instant Messaging

Stay connected with on-site guards and share information instantly for better and quick decision making.

No Miscommunication

Instant messaging allows guards to quickly clarify any miscommunication related to post orders, tasks, and schedules.
